

CONICAL BUCKET GALVANIZED BLOK

In accordance CE

Comply with European legislation **EN 13155**

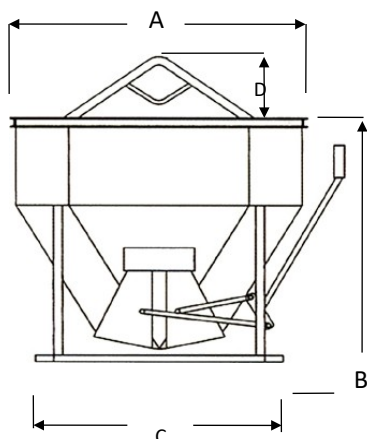

CONCRETE SLIDE

The concrete slide is a useful accessory that combined with Bucket Blok transforms it into a lateral discharge bucket; it can be applied on all sides of the bucket and is therefore recommended in cases that they need a **precise orientation when cooling**. It's application is very simple.

HOT GALVANIZING – LONG LASTING

SAFETY AT WORK – SHAPE AND EDGES ARE ALL ROUNDED

SAFE FUNCTIONING – CLOSING LEVER AND SPRING OPENING GUARANTEES AN OPTIMAL OPERATION
